

Reduce Supply Chain Costs & Enhance Supplier Relationship

FASHION APPAREL

AI DRIVEN
SUPPLY NETWORK

THE NEW STANDARD HAS CHANGED

Supply Chains are facing unprecedented challenges *all at once*

Continuous supply chain disruptions

Supply Chain events, geopolitical, weather

New suppliers / product shortage

Tariffs, political instability onboarding and integration of new suppliers

Sustainability & Transparency

Consumer demands, overwhelming number of regulations

Digital Urgency / too much unstructured data

Generative AI, rapidly advancing capabilities. Get going or get left behind

Manage costs and drive profitability!

Materials, transportation, plus funding sustainability and technology initiatives

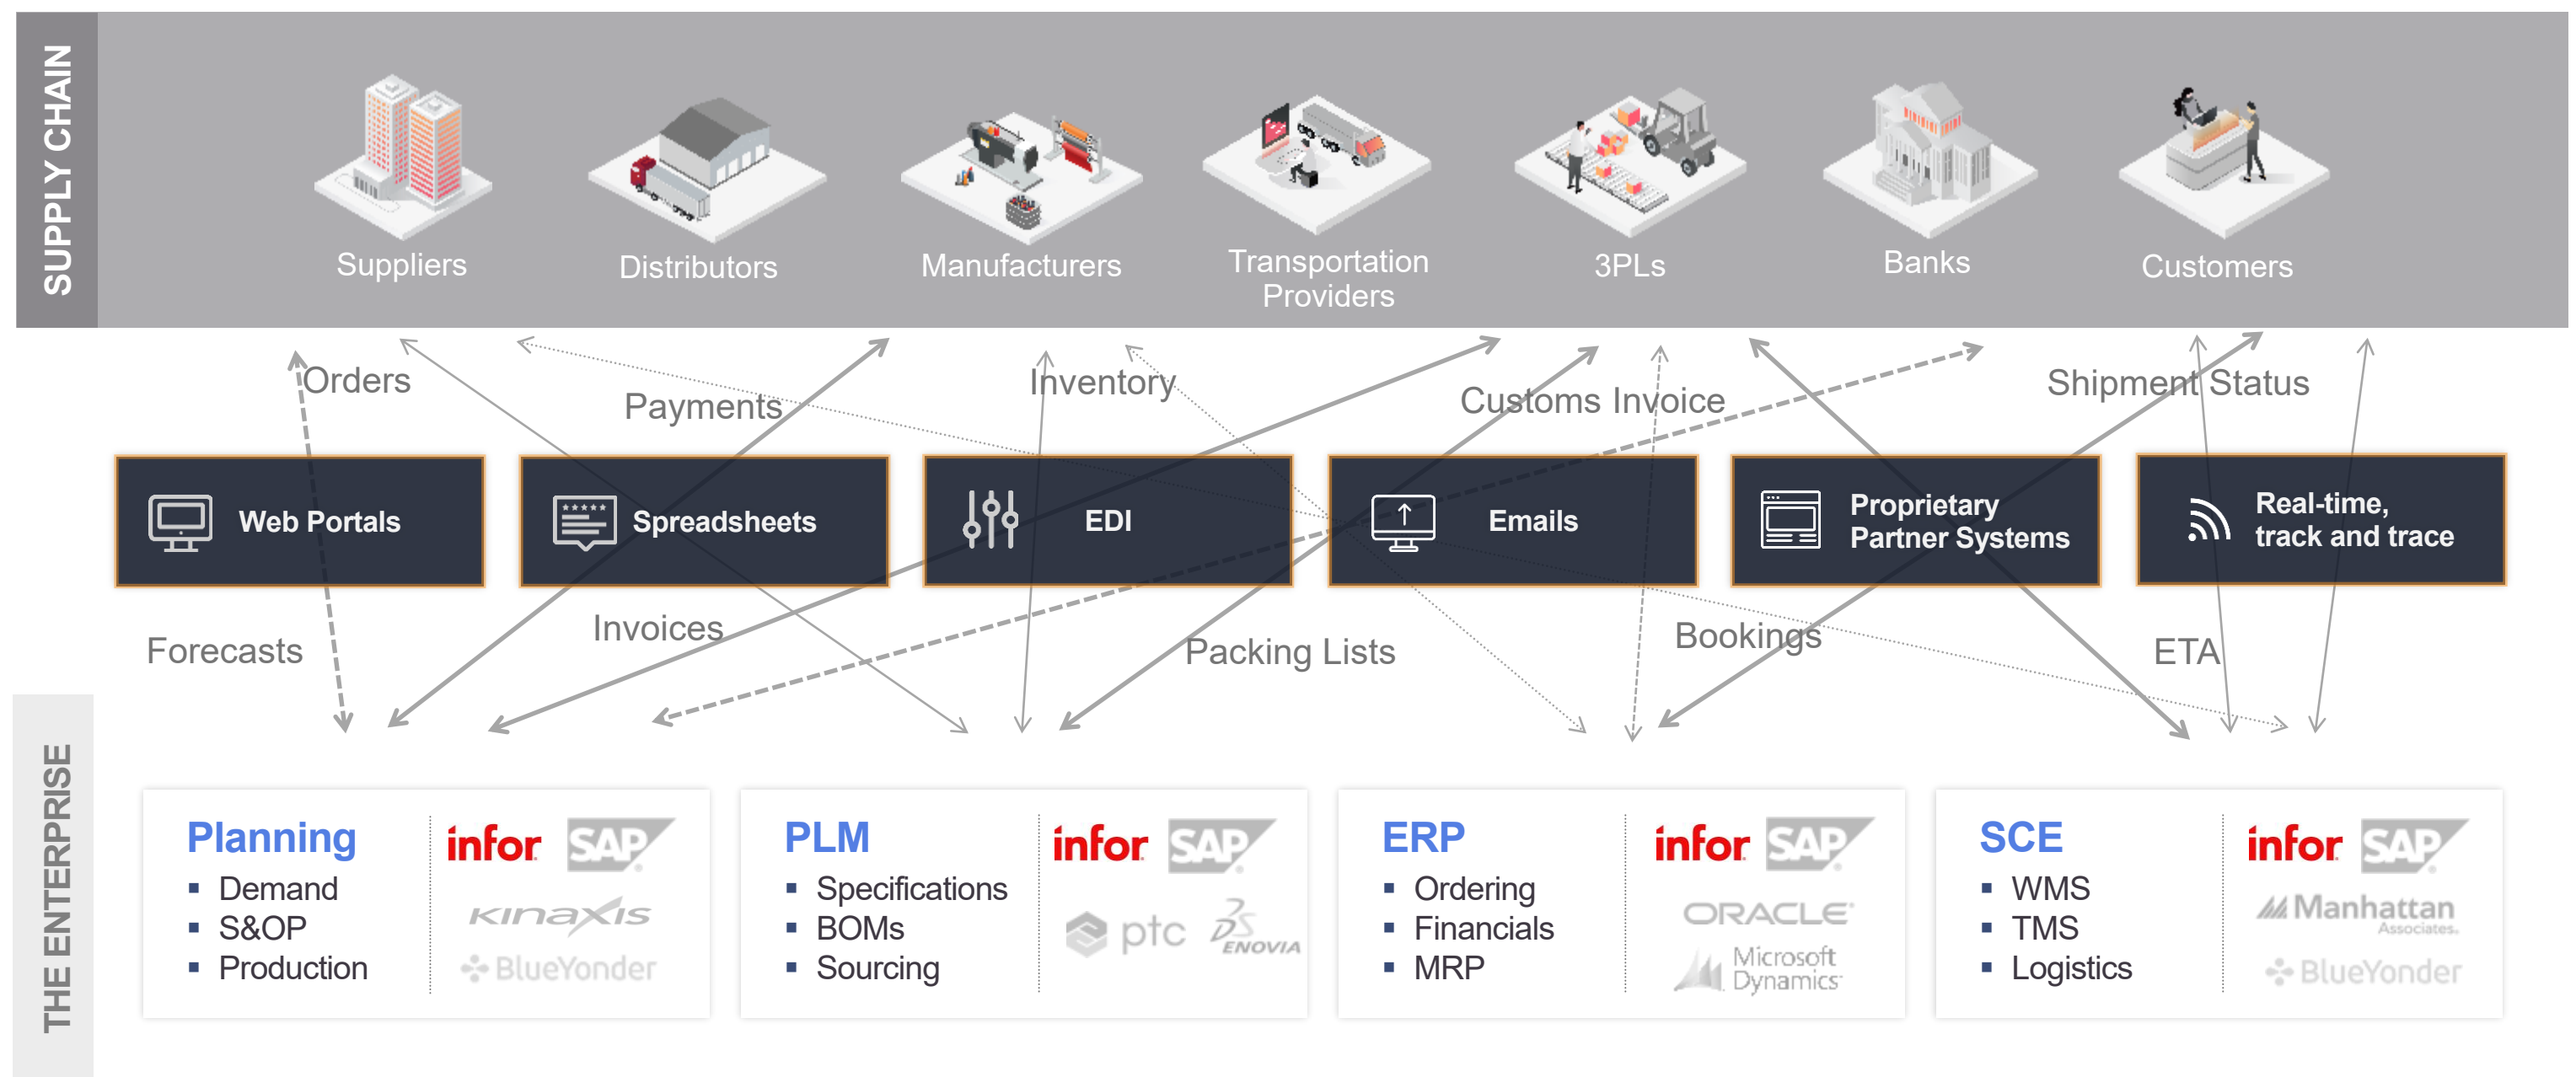

80%

Of **data** companies need to run their business sits outside their four walls, in partner systems

50x
per second

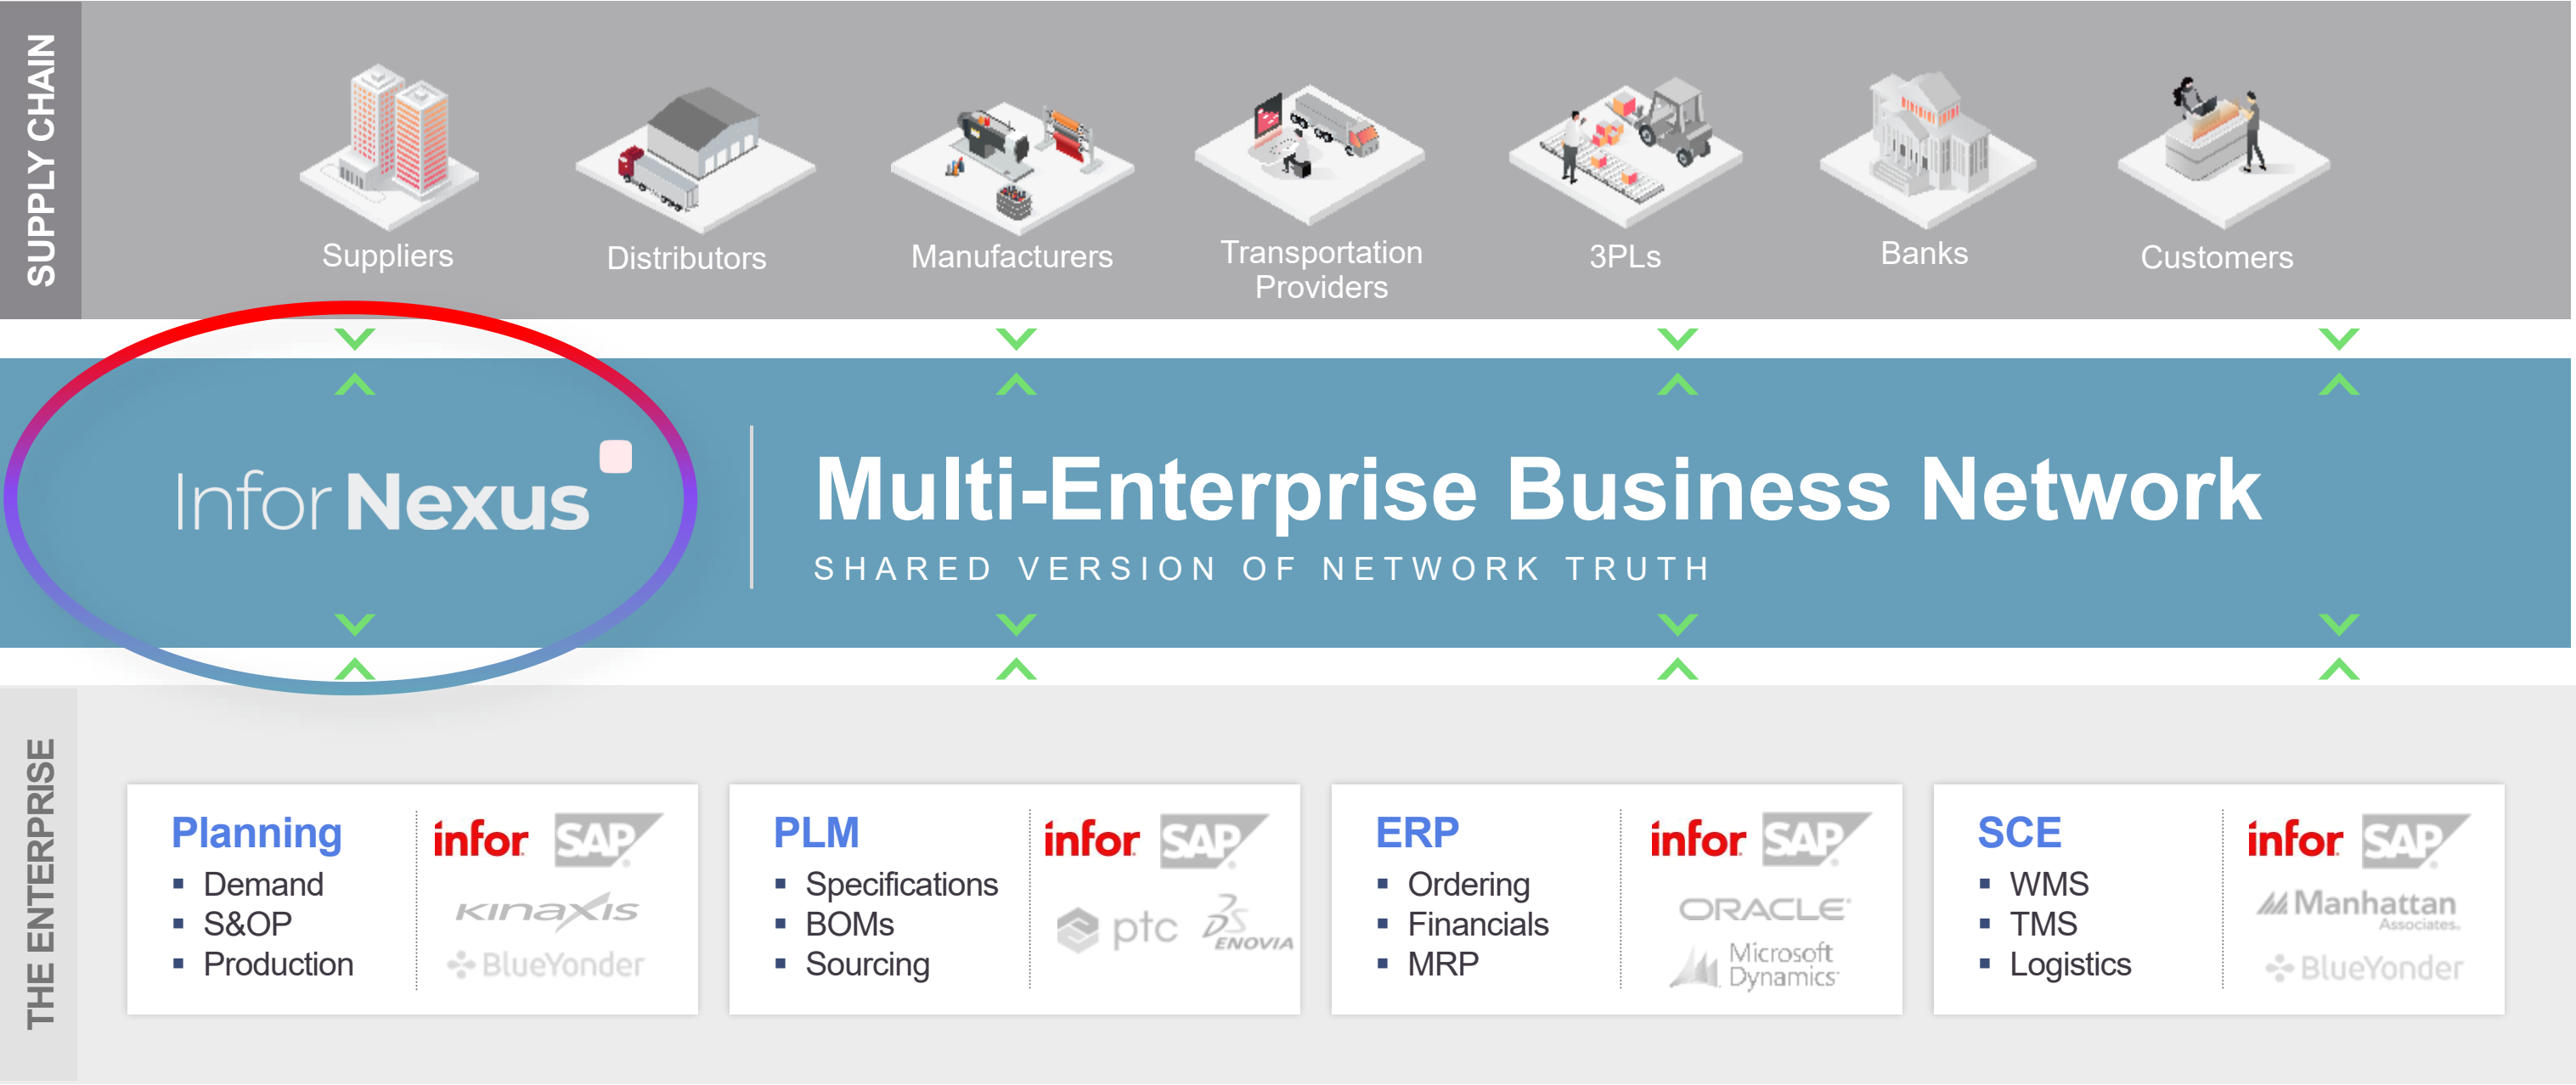

Rate at which supply chains change on the Infor Nexus network

The Network problem requires a network solution

How we address these challenges

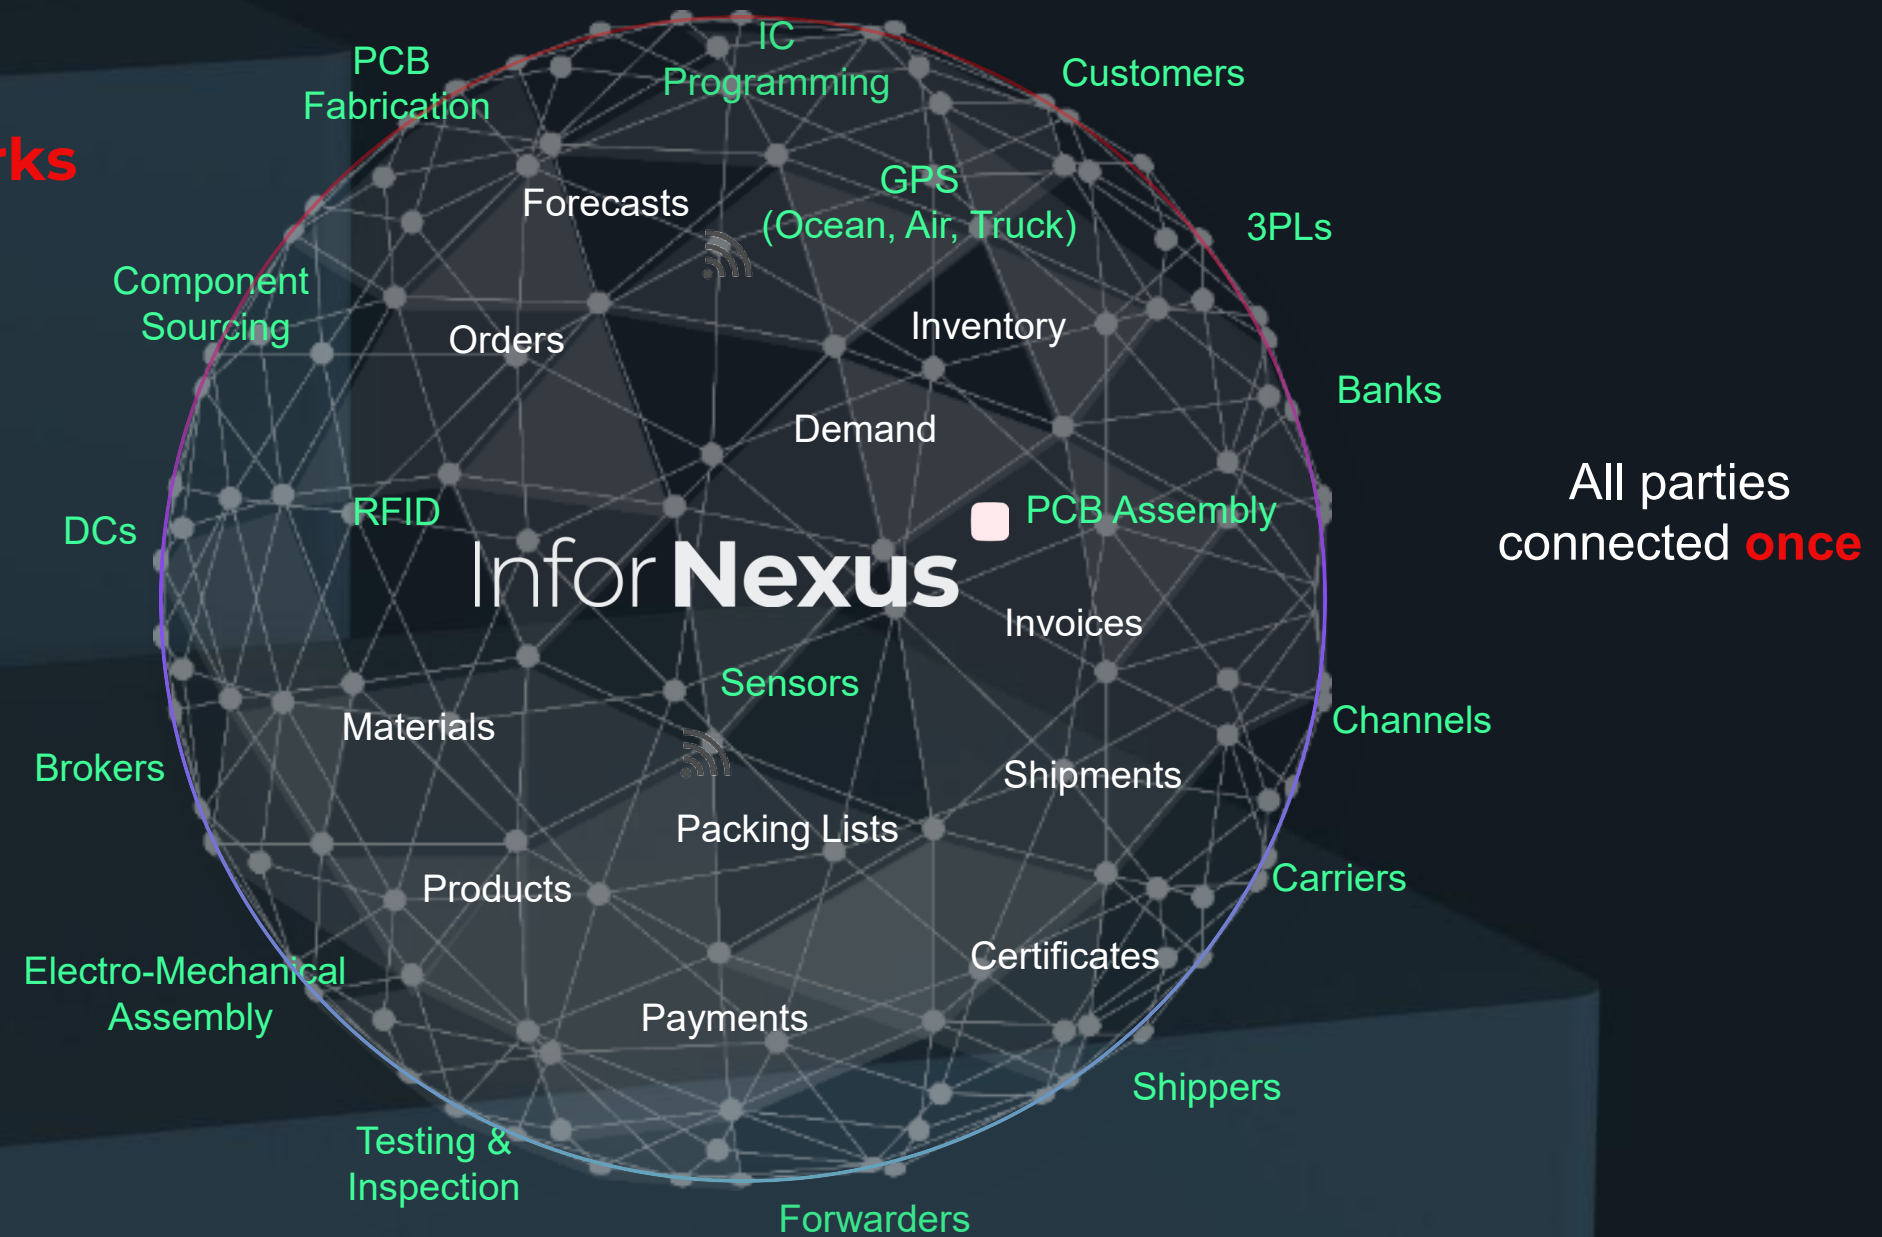

The Network problem requires a network solution

World's Largest Supply Chain Ecosystem for fashion, home decor

25 years of connecting global supply networks

- 95,000+ businesses
- 85,000+ suppliers and factories
- 35+ financial institutions
- \$90B in global payments
- 90% top global 3PLs

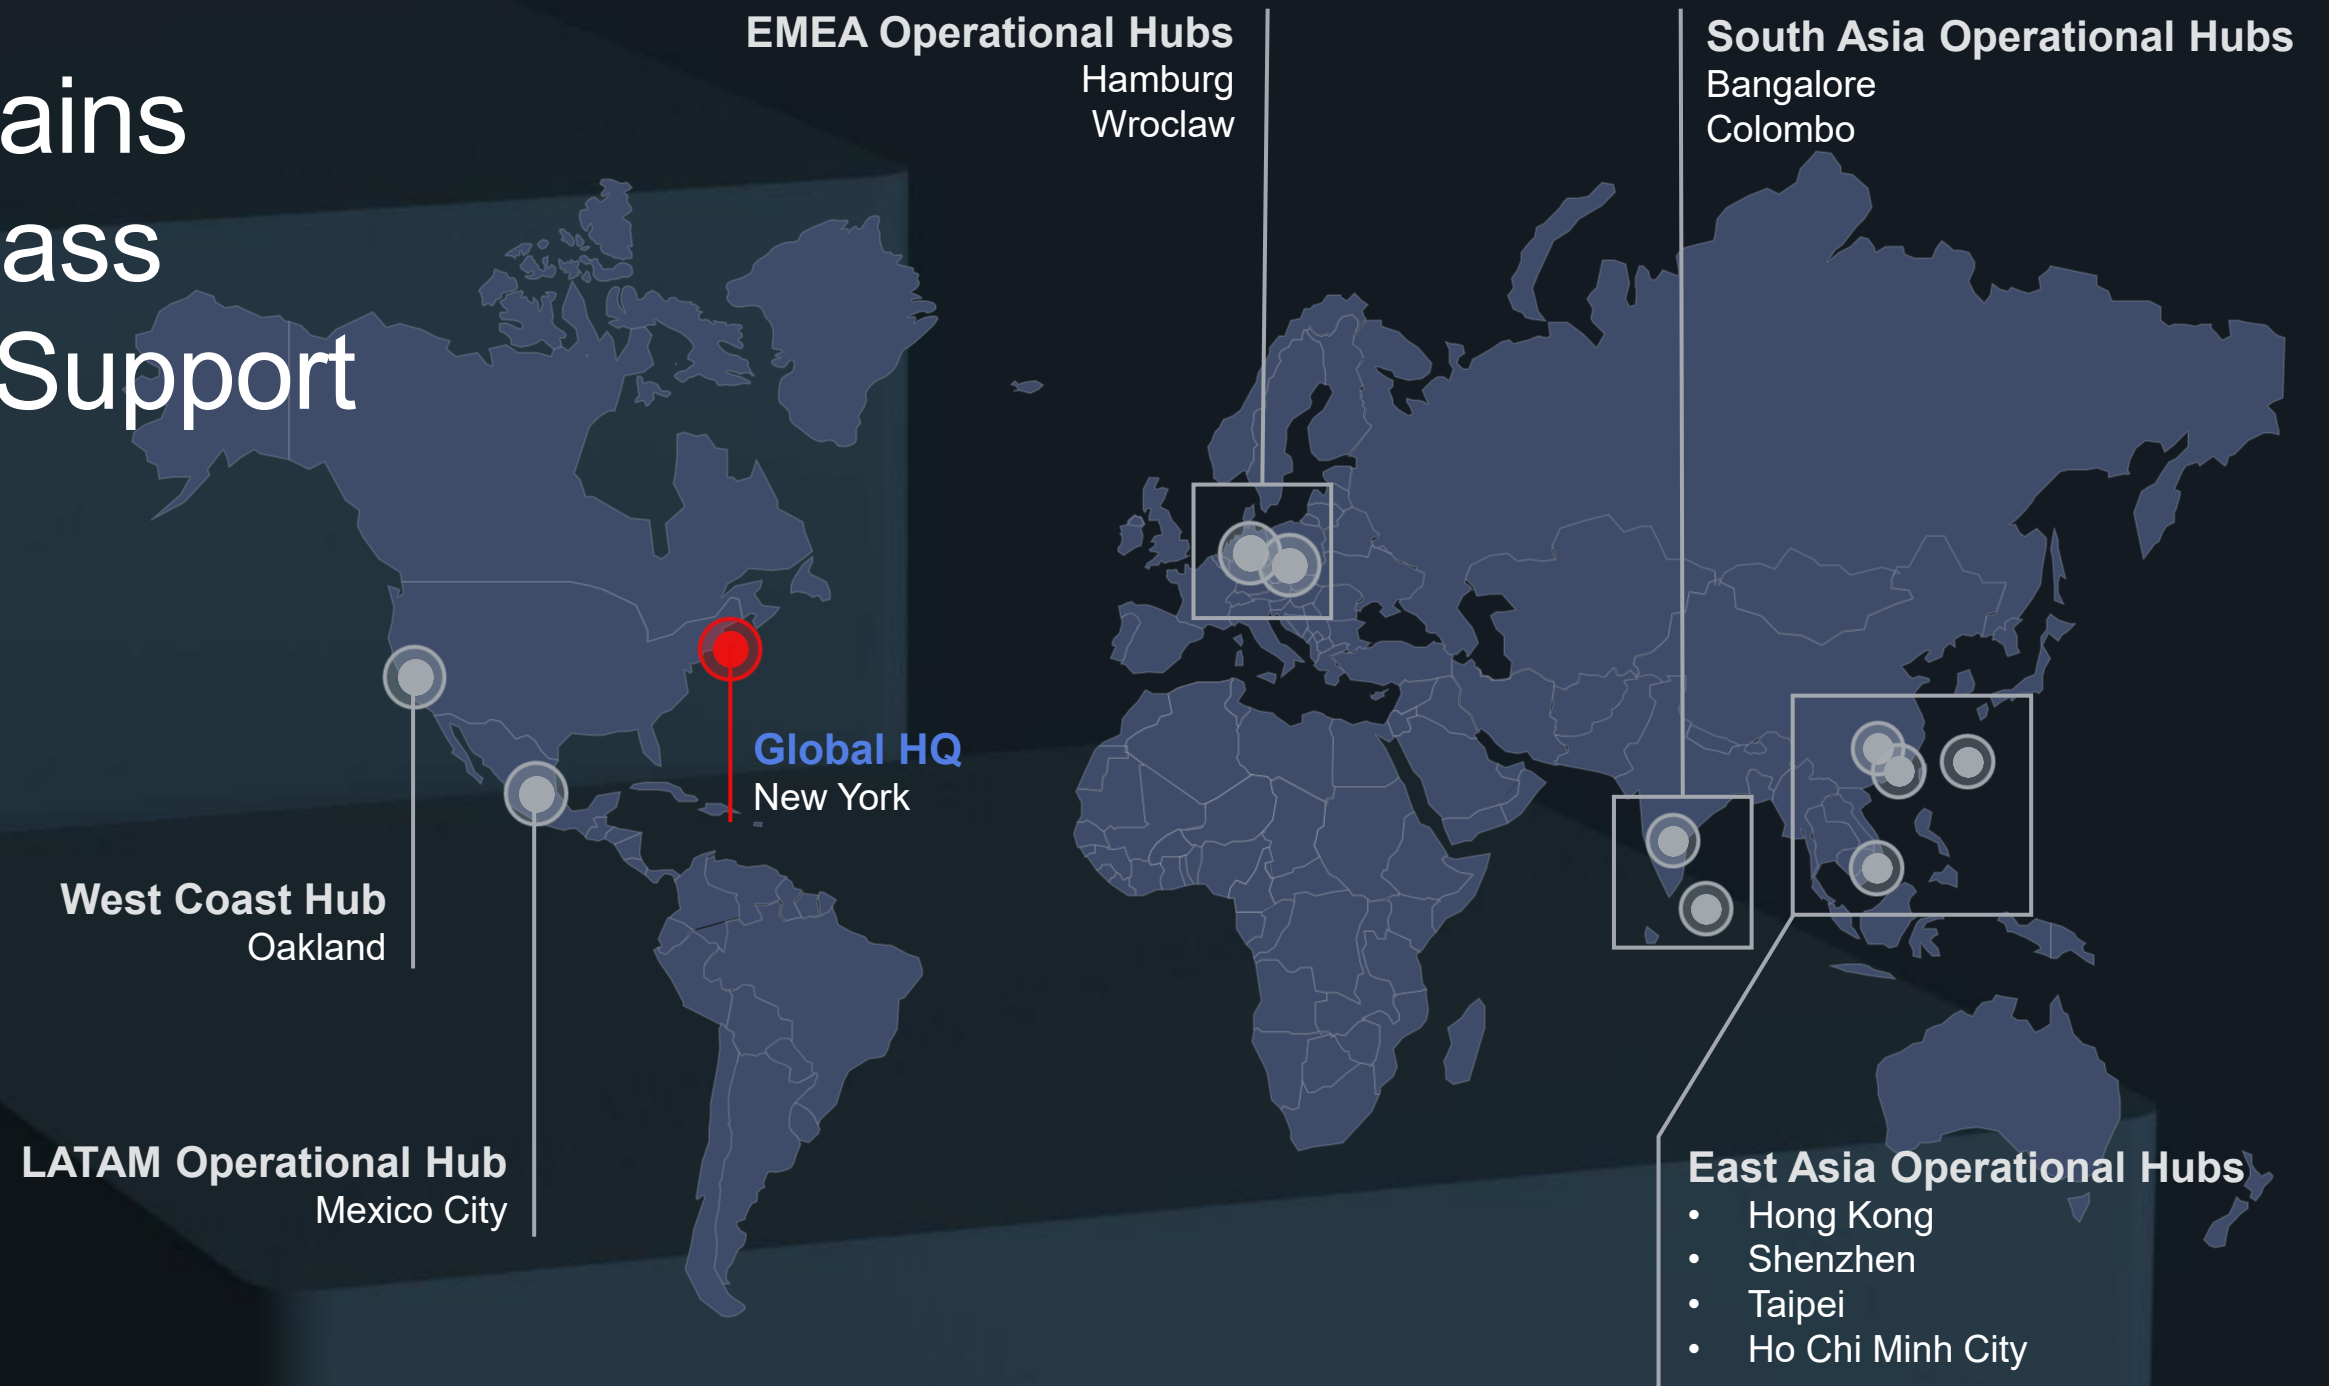

Network Thinking

Smart Supply Chains Require World Class Onboarding And Support

In-country, in-language

25+
Years

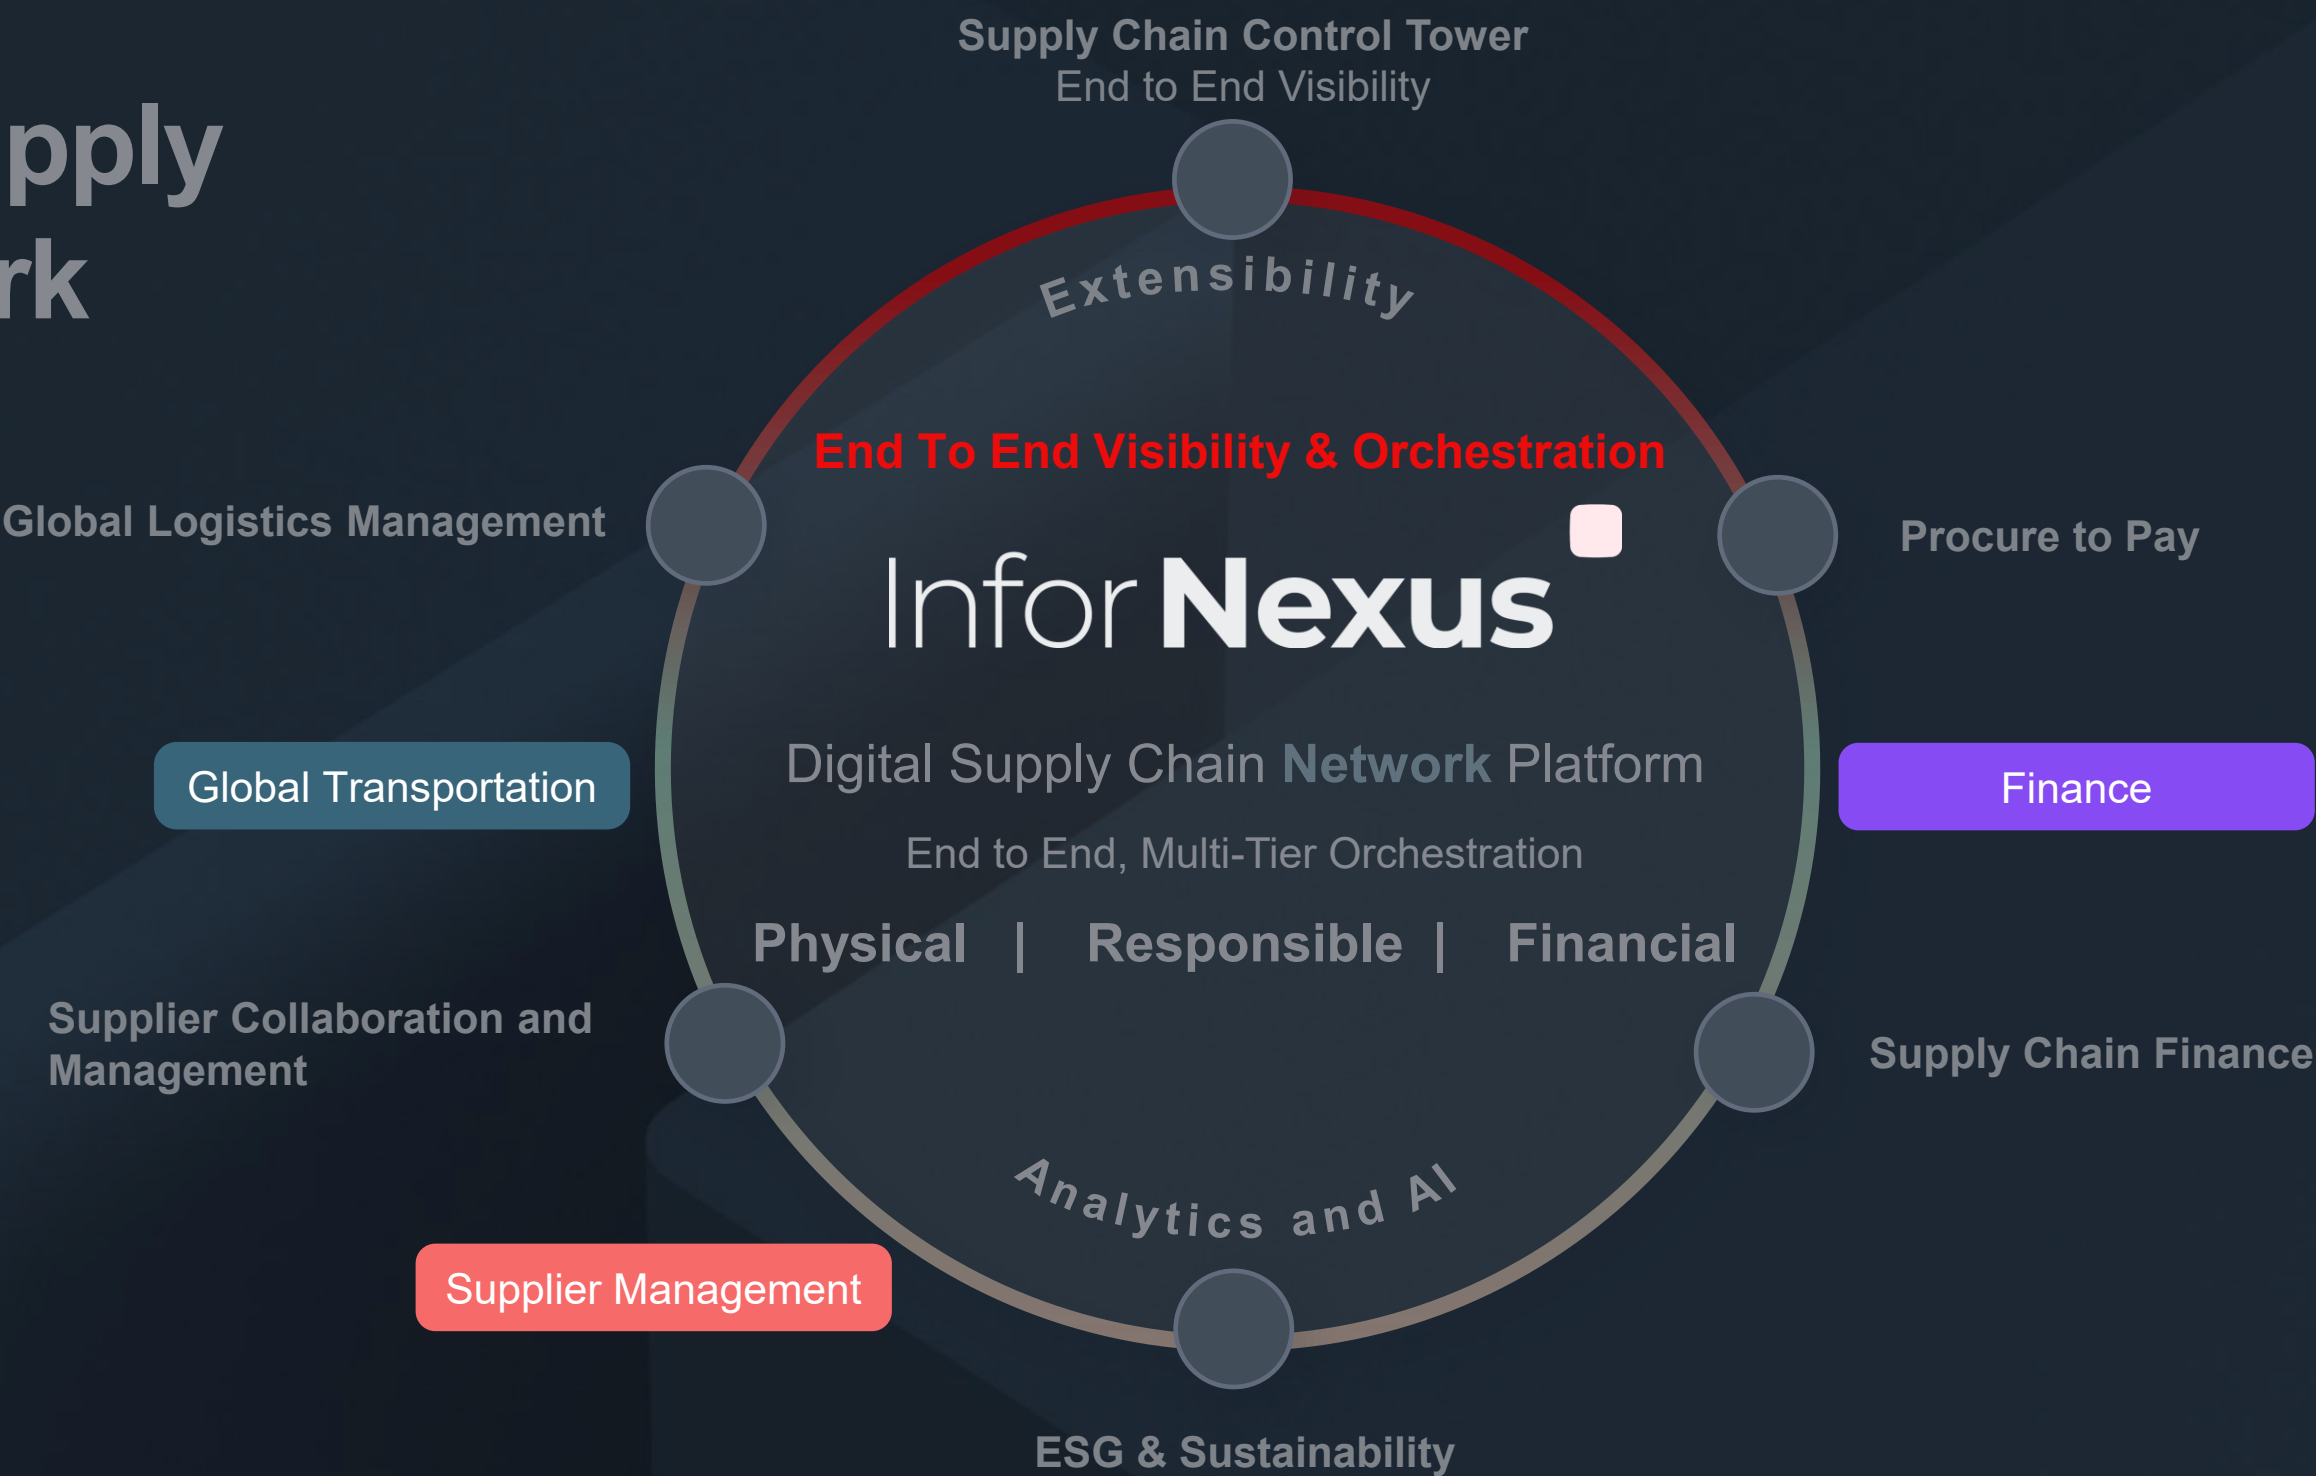

132+
Countries

Infor Nexus Retail / Fashion Customers

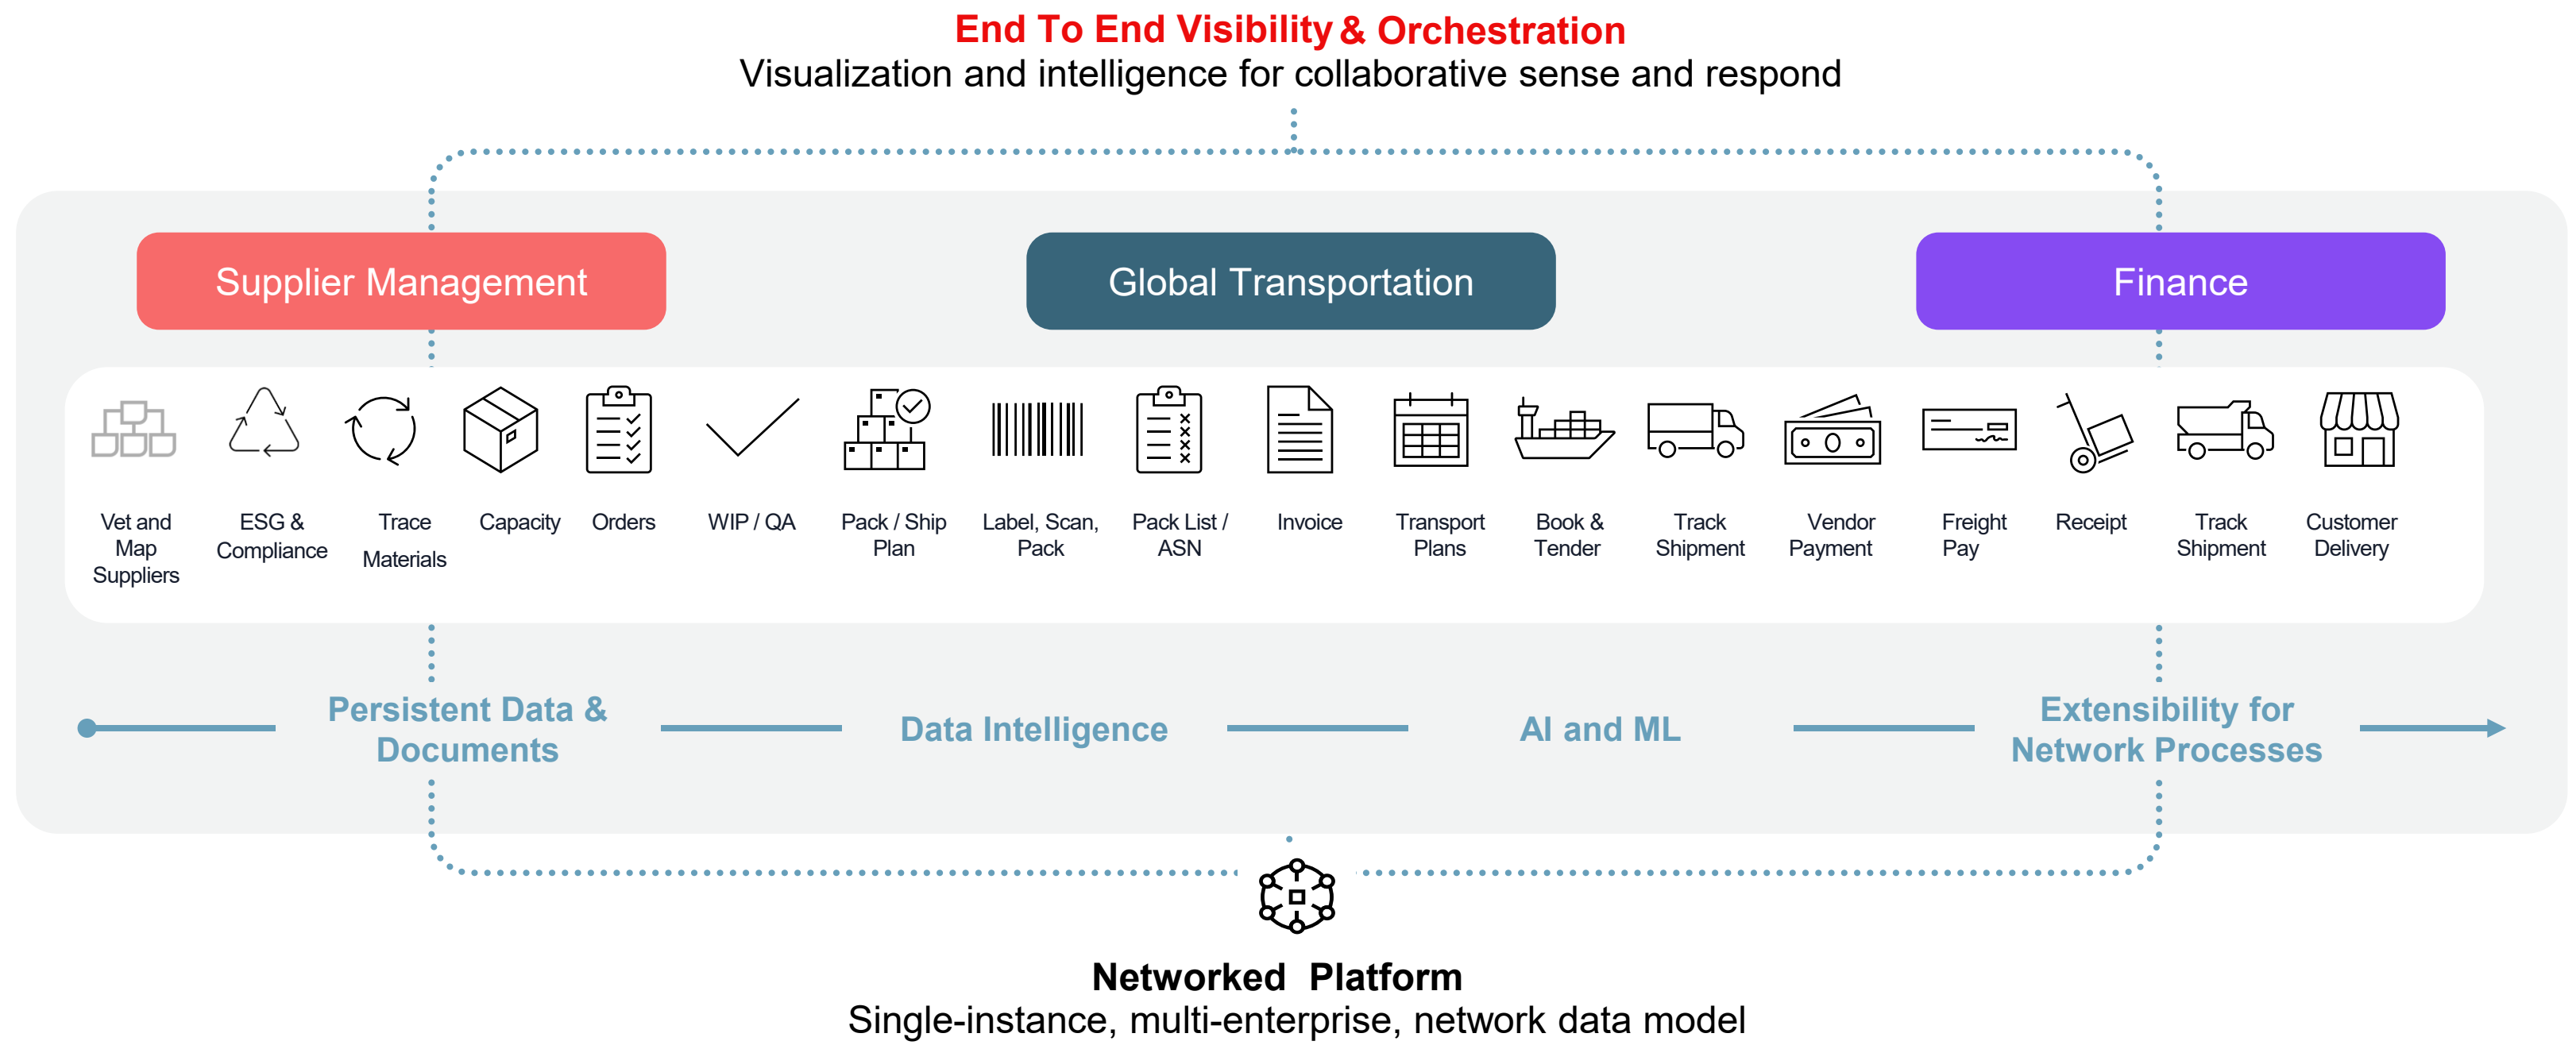

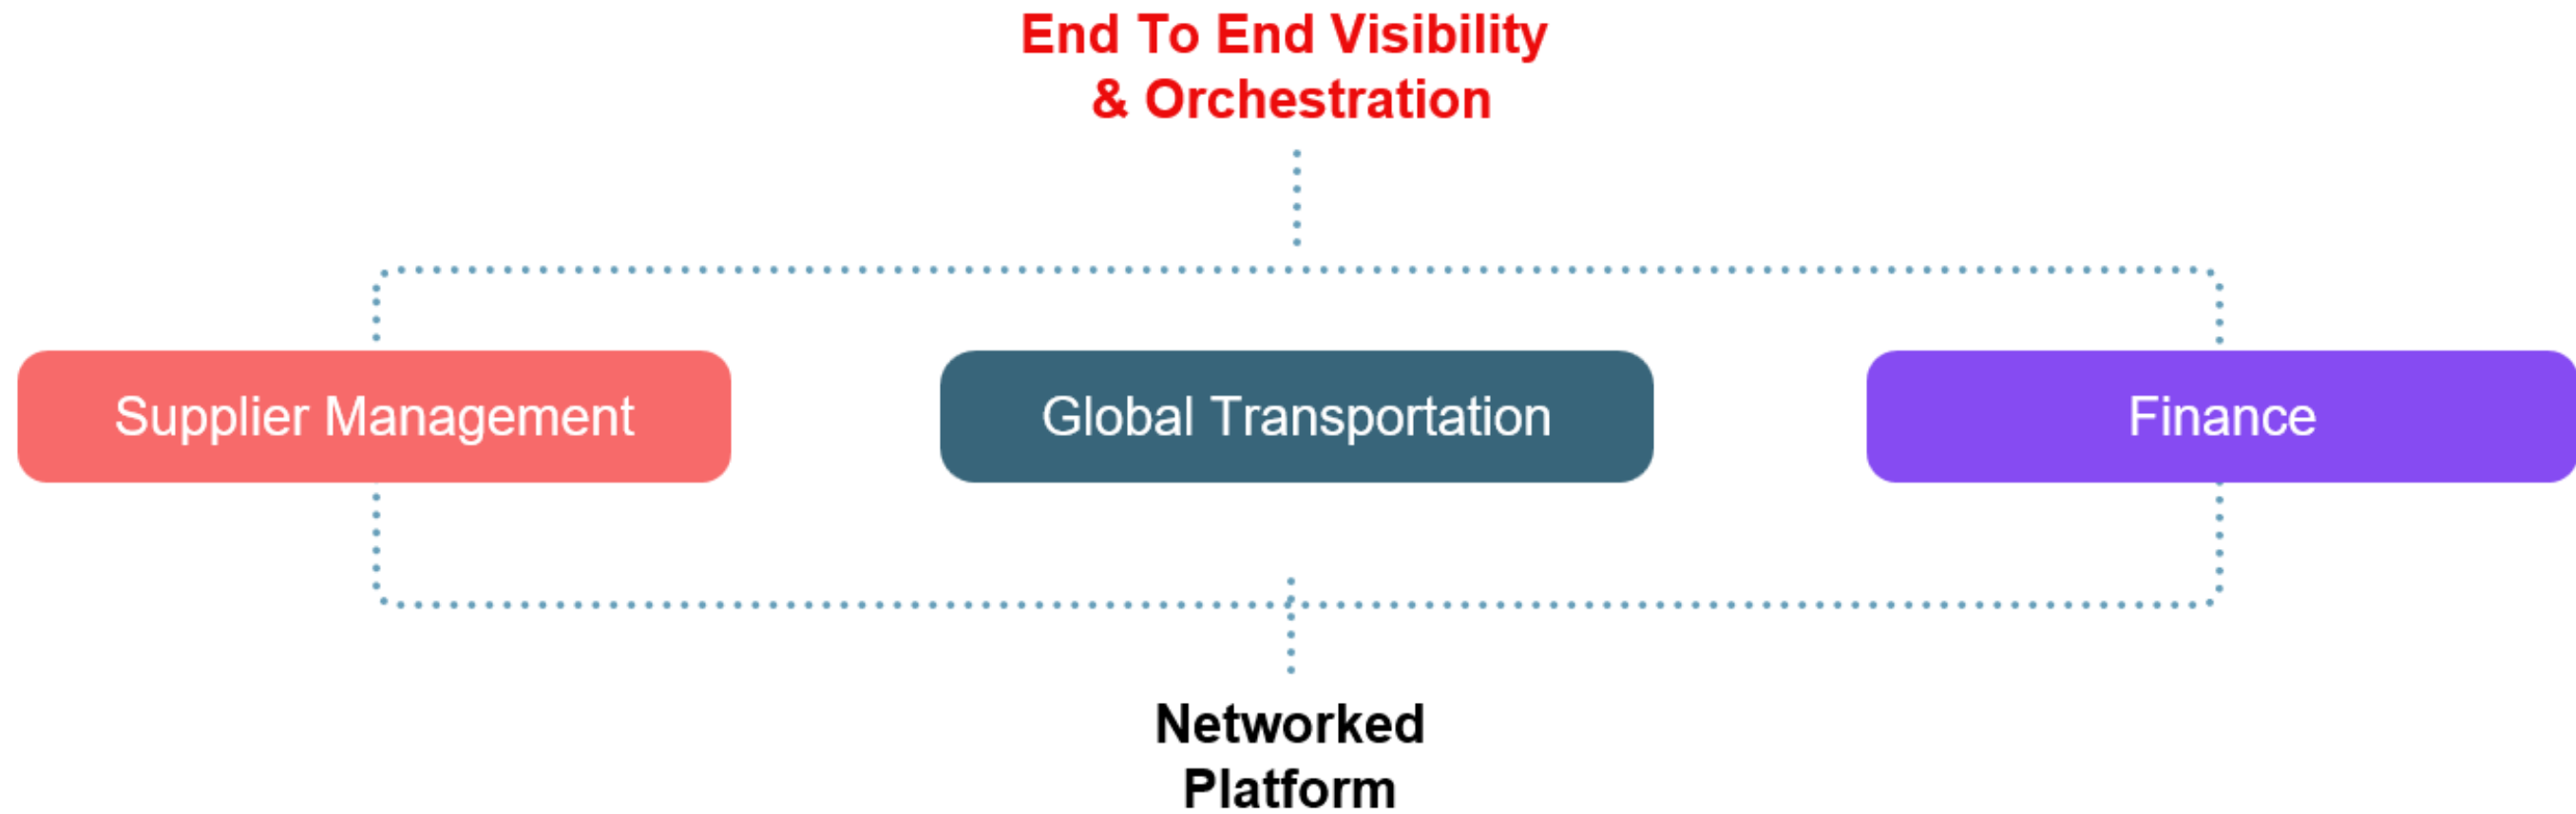

Digital and Intelligent Supply Chain Network

Manage the Physical, Financial and Sustainable Supply Chain Data and Processes

End-to-end digital process orchestration

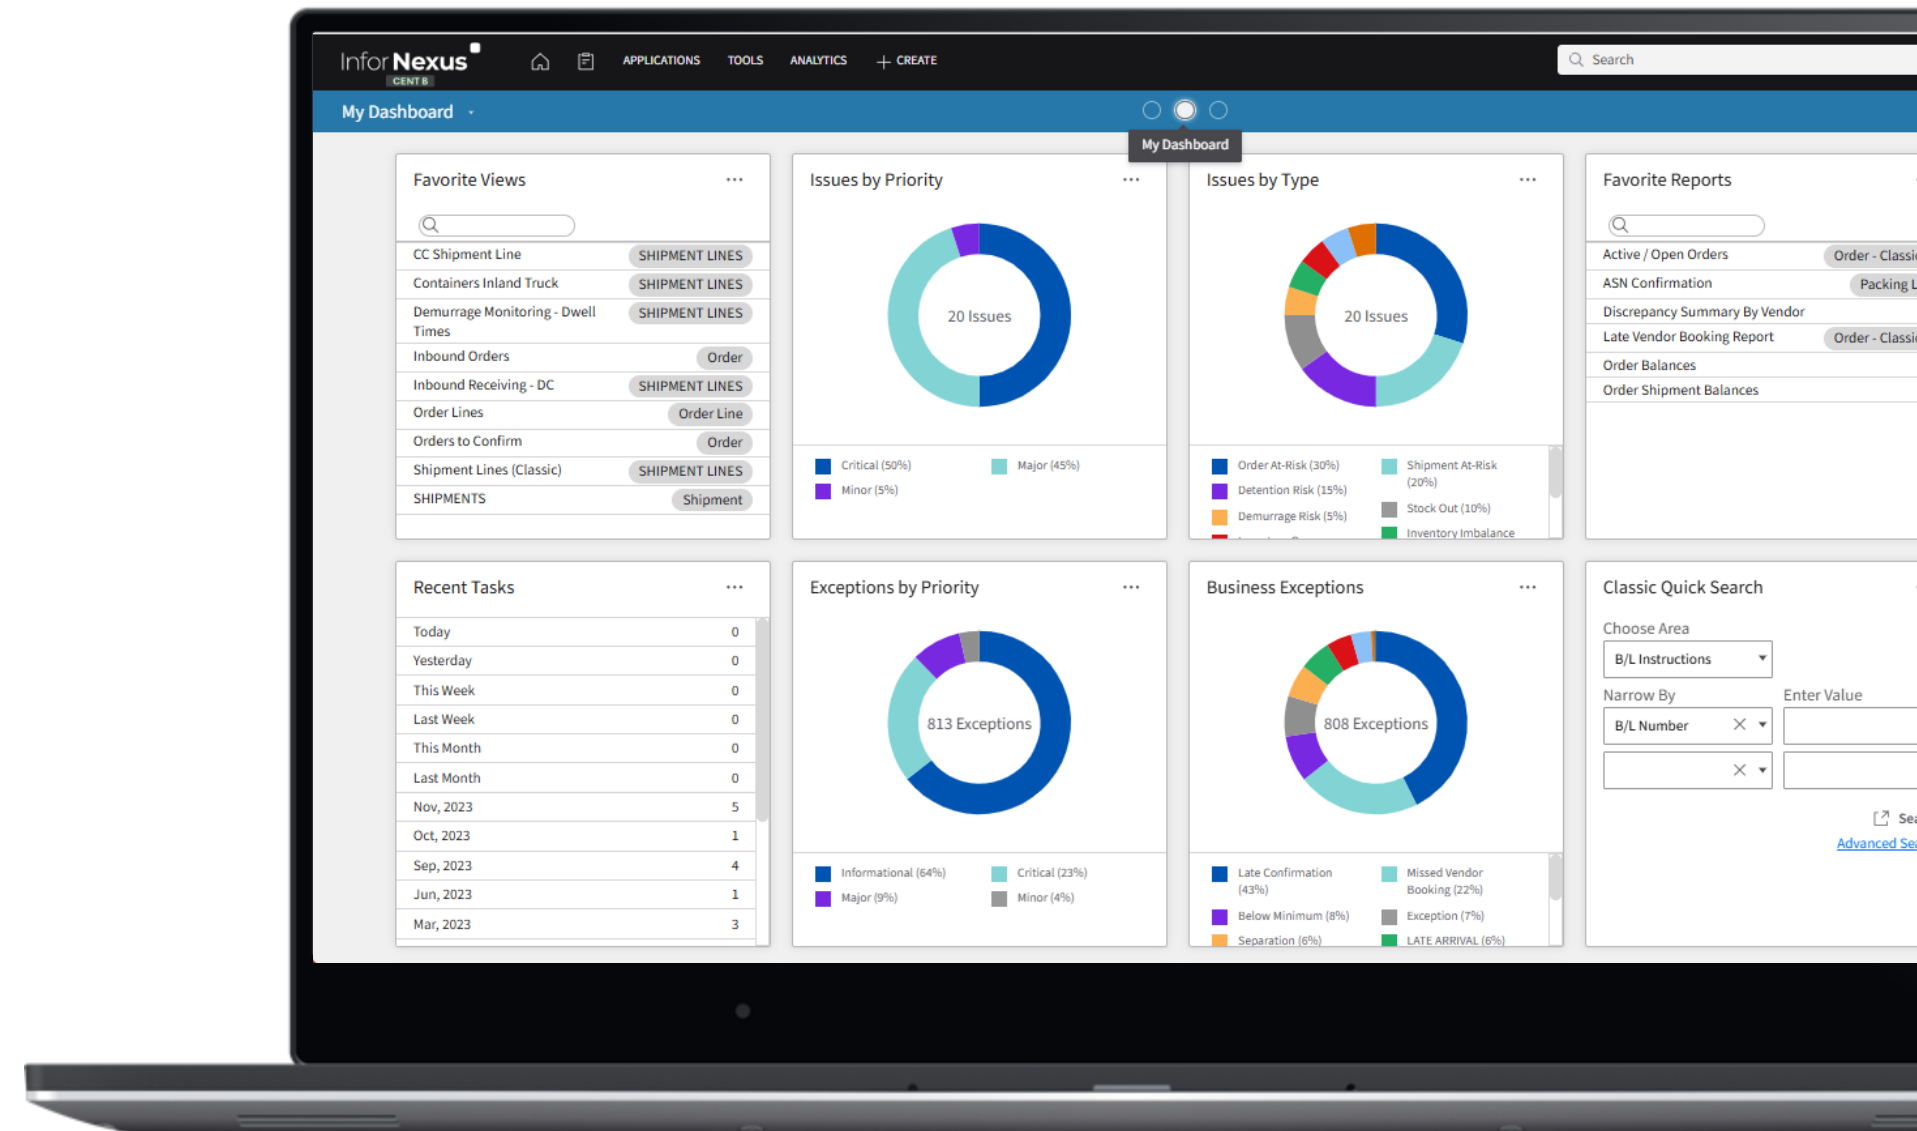

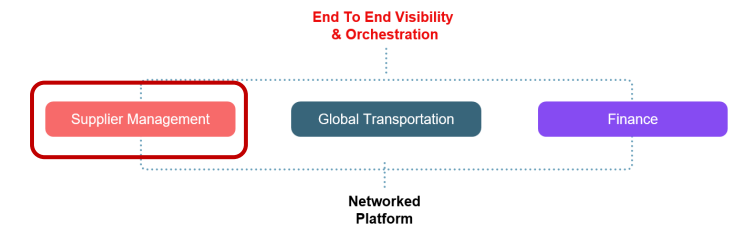

Supplier Management

Key Capabilities

- Collaborate on capacity, orders, WIP and quality assurance processes
- Automate supplier packing, shipping and document creation
- Supplier ESG and other compliance management
- Supplier mapping and material tracing

Customer Value

- Align supply with demand and enable postponement strategies
- Improve exit factory and in-DC performance
- Enable cross-dock and direct ship strategies
- Provide evidence of a product's chain of custody for regulatory compliance

Key Enablers

- Auto-populate with Order data, pack plan carton details, and scanning
- Enforce standardize document formats
- Reduce FOB by breaking out product components
- Synchronized with Vendor Booking details and LSP systems

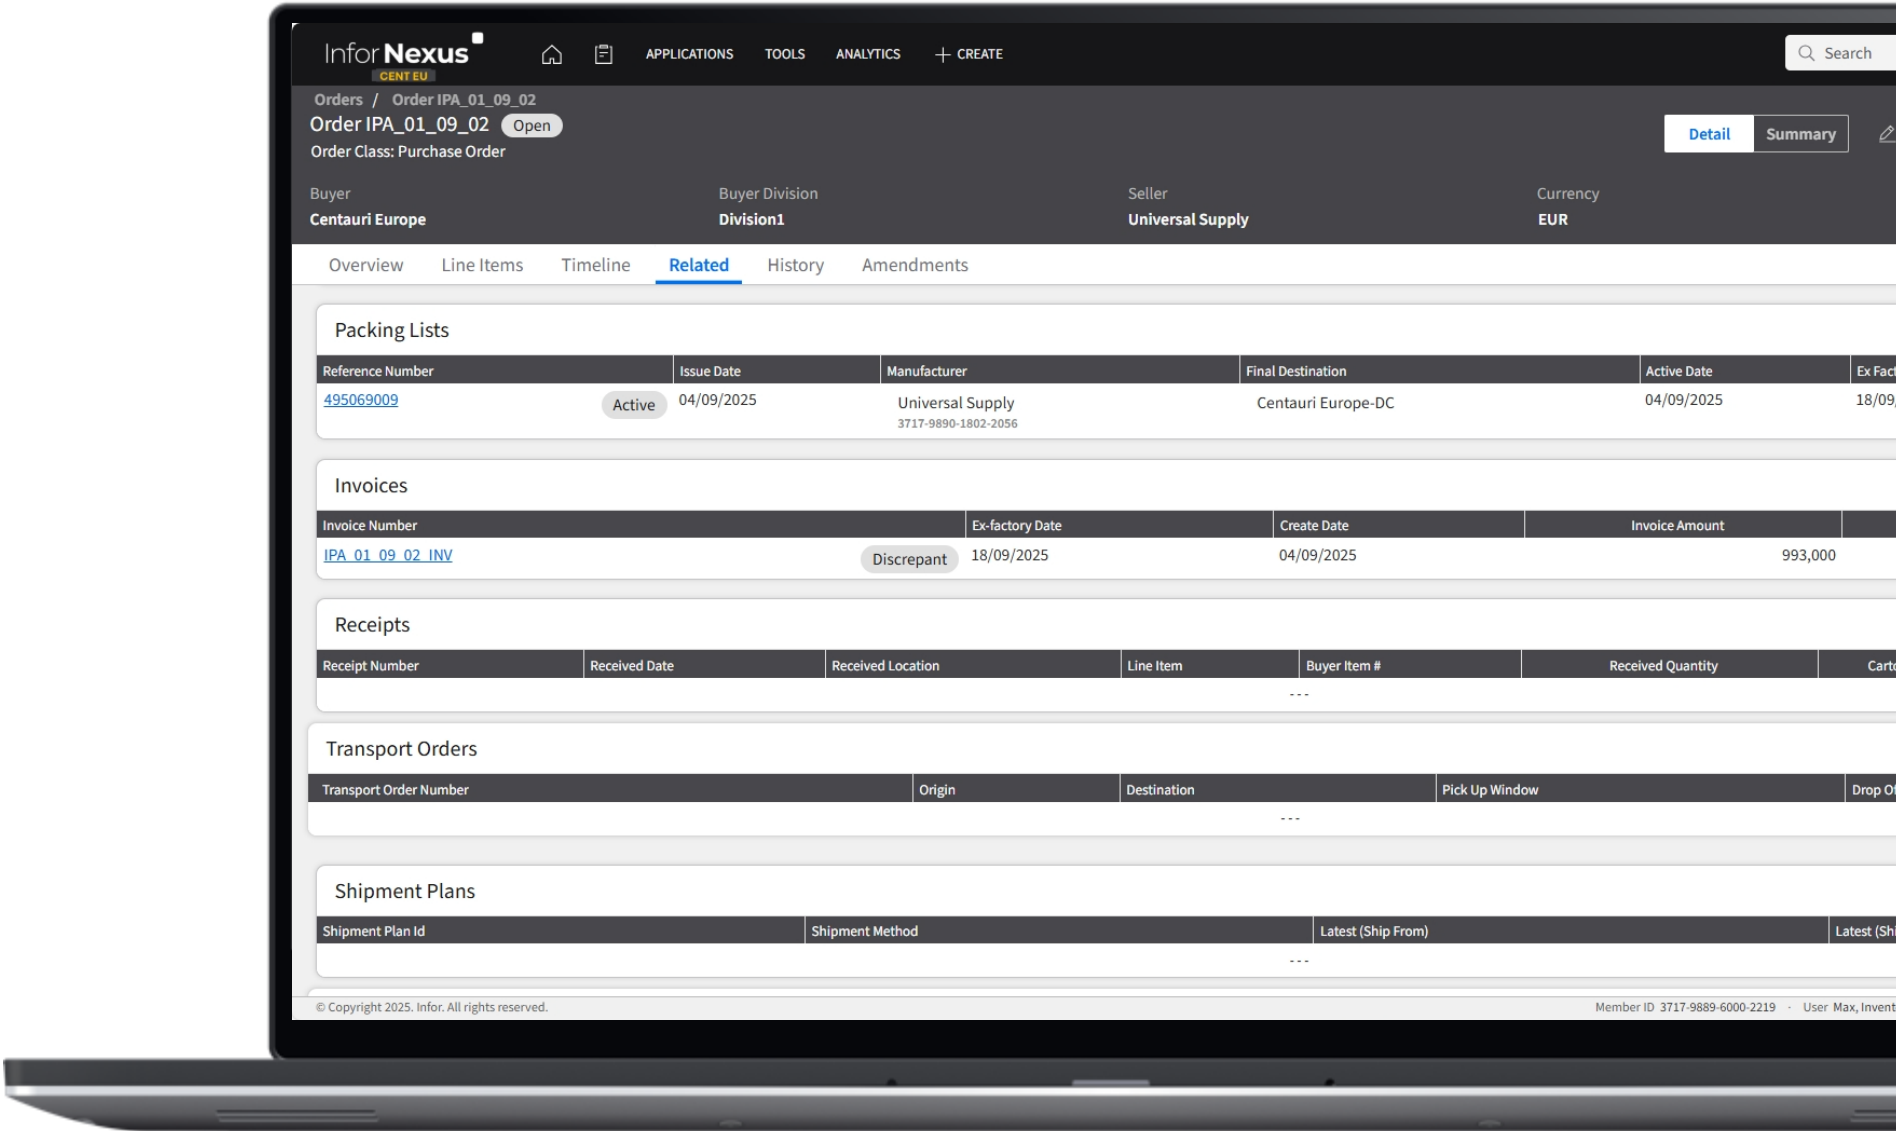

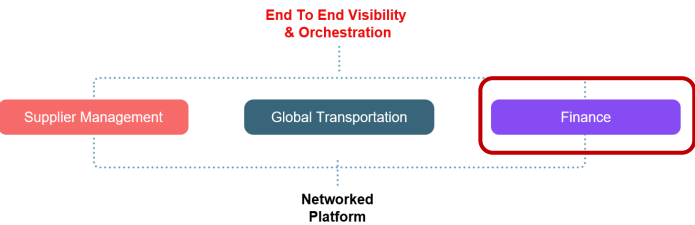

Procure to Pay

Key Capabilities

- Automated invoice creation, matching and approval
- Global payment management and visibility
- Supply Chain Financing

Customer Value

- Straight-through processing and scale headcount
- Enable strategic programs: extend terms, first sale and trading company
- Reducing banking fees
- Improve cashflow and supplier liquidity

Which shipments are delayed coming from the USA?

Lee Baijing

Which shipments are delayed coming from the USA?

Digital Assistant

I've analyzed the delayed shipments originating from the USA. Here's what I found:

[Explore Data](#)

There are currently 82 delayed shipments originating from the United States. The majority of these delayed shipments (57) are domestic shipments within the US.

Other notable destinations for delayed shipments include:

- Morocco (MA): 15 shipments
- China (CN): 2 shipments
- Germany (DE): 2 shipments
- Hong Kong (HK): 2 shipments
- Saudi Arabia (SA): 1 shipment
- Netherlands (NL): 1 shipment

Regarding transportation modes, these delays

- SC (Special Cargo): 59 shipments
- S (Standard): 23 shipments

Would you like more specific details about any

Lee Baijing

Which of the Morocco shipments is most delayed?
